

Lawrence Livermore National Laboratory and NNSA Livermore Site Office

Announce the First Annual

Laser Safety Officer Workshop

August 3-5, 2005

No Registration or Course Fees – Must RSVP by July 15, 2005

For those involved in laser safety, particularly in the Department of Energy and Federal Government setting, this workshop will offer a program aimed at helping the Laser Safety Officer (LSO) and program reviewer deal with the complex world of laser safety in a research setting. Every effort has been made to obtain exceptional speakers for presentations, panel discussions, and technology updates. We are initiating this workshop as a result of the DOE Special Operations Report on Laser Safety. Attendees will receive course notes, and CEU points have been applied for. Some space has been reserved for individuals that wish to submit a paper (see RSVP form for procedure).

"I think we have put together a program like no other, and I look forward to seeing you there. Without your participation the concept of a DOE LSO program and working groups will fade away." Ken Barat, Workshop Director

Hazards Control Department
Safety Programs Division
RSVP Response Form

Please complete this form and submit by **July 15, 2005** to:

Dena Rutan – Workshop Administrator
Lawrence Livermore National Laboratory
Email: rutan2@llnl.gov
Fax: 925.422.5270
Phone: 925.423.0696

- ☐ I will be attending the 1st Annual LSO Workshop
☐ I am interested but attendance is uncertain
☐ I will not be attending but place me on your notification list for next year.

Submitted Papers

If you wish to present at the workshop,
please send a 50-100 word abstract to:

Ken Barat at Barat1@llnl.gov

Laser Safety Officer Workshop

Preliminary Agenda

Day 1 August 3

Time	Topic	Speaker
7:30-8:30	Badge & registration	
8:30	Welcome	LLNL Director's Office Representative
8:45	Welcome	HCD Management
9:00	Explanation of Conference	Ken Barat
9:15	Changes coming to ANSI Z136.1	
10:00	Break	
10:20	Outdoor LSO duties	
11:00	Los Alamos Accident Review (7/04)	
11:40	Lunch	
12:45	Panel 1--Special Operations Report	
1:45	Tech update--High power diodes	
2:30	Break	
3:00	Tech update---Intense Pulse lasers	
4:00	Panel #2 Discussion on Universal Laser Safety Training/reciprocity	

Day 2 August 4

8:30	Navy LSO Training
9:10	Mentoring Students
9:50	Laser Audits
10:30	Break
10:45	Tech update Fiber Lasers
11:30	Lunch
12:30	Panel # 3--Laser safety at User Facilities
1:30	Room interlocks –Access
2:10	Break
2:30	Calculation software demo LIA- Laser Hazard Evaluator
3:10	Calculation software Demo Easy Haz Pro
3:50	Calculation software Demo RLI
4:00	NIF tour

Day 3 August 5

8:30	Panel # 4-- Distribution of lessons learned/LSO networking
9:30	What is missing from LSO training?
10:15	Alternative room access
11:00	Conclusion
11:15	Tour Mercury Lab/Falcon Lab
